Underrepresented according to PA-02-109, May 16, 2002: http://grants.nih.gov/grants/guide/pa-files/PA-02-109.html

* The primary objective of the NRSA program is to prepare qualified individuals for careers that have a significant impact on the Nation's research agenda. Within the framework of the program's longstanding commitment to excellence and projected need for investigators in particular areas of research, attention must be given to recruiting individuals from racial or ethnic groups underrepresented in the biomedical and behavioral sciences. The following groups have been identified as underrepresented in biomedical and behavioral research nationally: **African Americans, Hispanic Americans, Native Americans, Alaskan Natives, and Pacific Islanders**. Use of the term "minority" in this announcement will refer to these groups.
